Discover our full range of Deltaracks at:
www.deltarackusa.com

Available lengths:

The weight capacity shown is an estimate resulting from static tests in defined circumstances. Bulk pricing = 20 or more racks ordered.

ACCESSORIES

Wheel Board Set

Wheel Boards are designed to fit securely between the Uprights (ribs) allowing mobility of your Deltarack. They can be permanently secured to the rack, or simply held by the weight of the rack, enabling the wheel boards to be removed as needed.

Available with 2 swivel locking and 2 fixed directional wheel or 4 swivel locking wheels.

WB Standard set \$180.00

WB Full Swivel \$195.00

Safety Clamp

Safety Clamps are used to quickly secure items loaded on the Deltarack. Recommended for racks which are used internally to transport items in a shop/ plant environment.

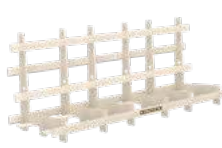

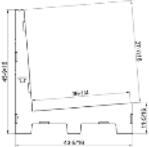

Rubber U-Channel

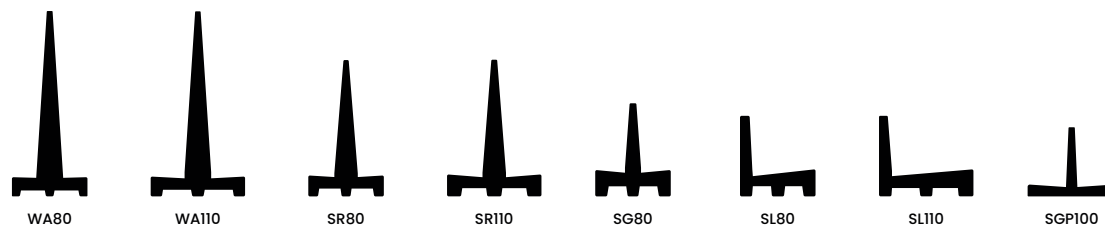

Protect your rack while increasing the longevity with our custom made u-channel. Designed to work with all of our rack systems and comes in rolls of 100' long and sold at **\$1.25/ft**

Window Rack Data & Price sheet

User Benefits

- 13 Numbered Slots: Keep windows and large items organized and secure with numbered slots for quick, easy access.
- 3.75" Slot Separation: Perfectly spaced for most vinyl windows, ensuring safe storage without risk of damage.
- Flat Pack Shipping: As with all DeltaRack products, this rack ships flat for cost-effective delivery and assembles in minutes, getting you up and running quickly.
- Forklift & Tow Motor Accessibility: Pick up the rack from all four sides for convenient mobility around your workspace.
- Optional Wheel Boards: For even more flexibility, optional wheel boards allow for effortless transportation around your warehouse or job site.

Introducing the **DP-SL120.10.150/5 Window Rack** —part of the Delta Pro (DP) Series, designed to take your organization and efficiency to the next level.

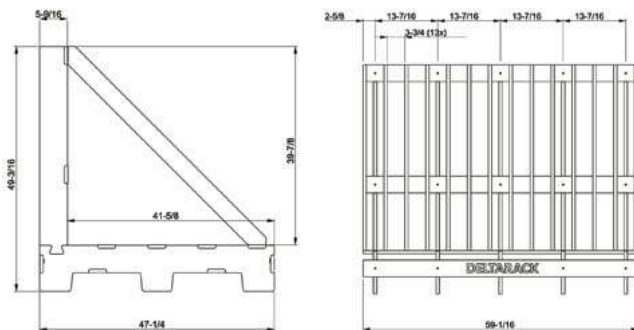

Built for window dealers, manufacturers, and contractors, this rack offers seamless access, secure storage, and superior mobility.

Whether you're storing finished windows, screens, or other large items, the Delta Pro Window Rack helps you optimize space, protect your materials, and improve workflow, making it an essential tool for both warehouse and job site operations.

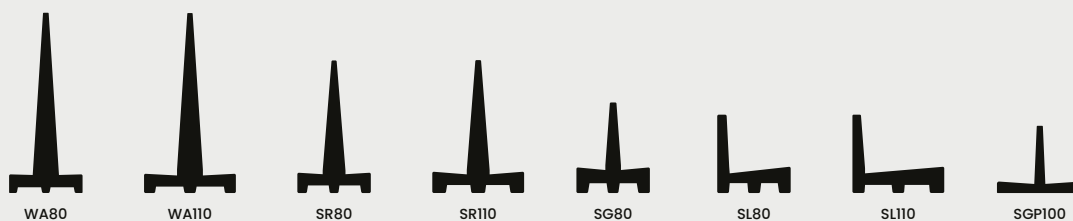

The **DP-SL120.10.150/5 Window Rack** from the Delta Pro Series is engineered for professionals who demand top-tier organization and efficiency.

Pricing sheet

User Benefits

- Designed for standard 40" Pallets, attach directly to pallet using screws and/or banding.
- Low cost rack systems start at \$ 88.00 each
- Flexible Design options
- LTL Approved
- Delivered flat pack K.D. (Knock Down)
- Quick and easy assembly (five minutes)
- ISPM 15 - Approved for Global Shipping
- Patent

The **Deltarack PalletRack®** is an economical, light and practical solution that attaches directly to any pallet and turns it into A-frame design. This solution simply attaches directly on to any pallet and can be secured with screws and banding. Each rack system comes in 44" length slats with 7 options to choose where the uprights will be located.

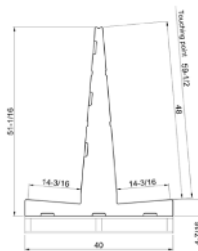

The Palletrack® is made and designed using the same construction method and quality everyone has come to know and expect with any Deltarack Product.

All products are based on the same delta profile. All racks are shipped flat - bundled - not assembled. The only tools required is a rubber mallet and a powered screwdriver.
